-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim 28 is rejected under 35 U.S.C. 112, first paragraph for the reasons set forth in the Office Action of July 11, 2003.

Applicant's arguments filed October 9, 2003 have been considered but have not been found persuasive.

It is noted that Example 17 demonstrates the suppression activity for NO production of the compound 2-(3,4-dihydroxy-1-butenyl)-4-(2-formylvinyl) 1,3-dioxane. However, there is no known correlation between the suppression activity for NO production and the treatment of all the diverse diseases set forth in claim 28. The treatment of the diseases encompassed by claim 28 is highly unpredictable. It is a mere speculation on applicant's part that the claimed composition is effective in treating all the diseases set forth and it would take an undue amount of experimentation to determine for the treatment of which specific diseases the claimed composition is useful.

Claims 11 and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 11 is indefinite in that the structural formula of compound of formula (I) is incomplete i.e. SR and OH groups are missing.

Claim 28 is indefinite in that the copy provided is partly unreadable i.e. the specific compound encompassed by said claim cannot be determined.

Claims 11-12 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Rosenschein et al (U.S. Patent No. 5,984,882) for the reasons set forth in the Office Action of July 11, 2003.

Applicant's arguments filed October 9, 2003 have been considered but have not been found persuasive.

Applicant contends that the compound of formula (I) is a thioether compound derived from a compound having an SH group and a cyclopentanone compound. However, applicant has failed to point out how R group encompassed by formula (I) is different from the R group encompassed by the reference. Note that the terminology "R is a residual group" (claims 11-12) encompasses any group.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
